Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 2183

1. Claims 7-18 and 22-30 are presented for examination.
2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 7, 9, 13-17, 22-23, and 25-27 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Mahlke et al. (Effective Compiler...).
4. The examiner would suggest applicants read sections 2, 2.1, and 2.2 as well as reviewing Figs. 1(a), 1(b), 2, 3, 6(b), and 6(c).
5. In claims 17 and 23 applicants claim a “conditional branch processing unit to associate a condition for a conditional branch instruction with one or more instructions in one or more branch instruction paths for the condition branch instruction to produce one or more conditional instructions”. Note that on page 50 Mahlke teaches “that hyperblock if-conversion does not remove branches associated with exits from the hyperblock”. As can be seen by the code in Figs. 6(c) there are multiple conditional branches (bgt and bne) requiring processing by a unit capable of processing conditional branches, and code such as the instructions designated by L5 represent an example of one or more instructions associated with a condition and which are from one or more branch instruction paths. Applicants’ broad claim language in claims 17 and 23 is, therefore, easily met by Mahlke.
6. Claims 8, 10-12, 18, and 24 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Art Unit: 2183

7. Claims 28-30 are allowable over the prior art of record.
8. Applicant's arguments with respect to claims 7-18 and 22-27 have been considered but are moot in view of the new ground(s) of rejection.
9. Any inquiry concerning this communication should be directed to William M. Treat at telephone number 703 305 9699. The examiner works at home on Wednesdays but may normally be reached on Wednesdays by leaving a voice message using his office phone number. The examiner also works a flexible schedule but may normally be reached in the afternoon and evening on three of the four remaining weekdays.
10. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
